

GRAAFTRACTOR!

BOUWINSTRUCTIES

Deze LEGO® CITY bouwtractor is een graafmachine en kiepwagen ineen! Hij kan modder opgraven en hem direct in de bak aan de achterkant gooien en heeft dus binnen no-time nieuwe bouwplaatsen schoon.

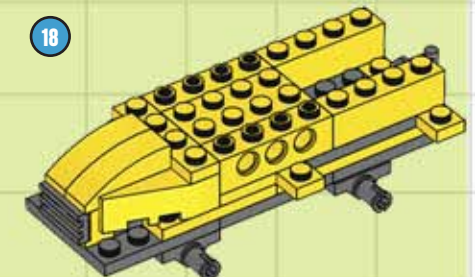

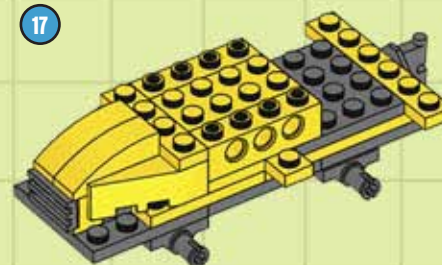

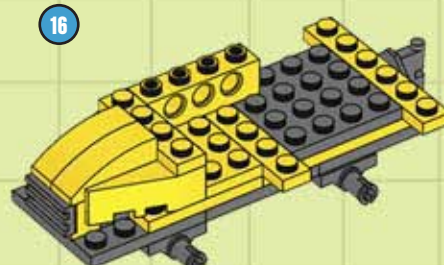

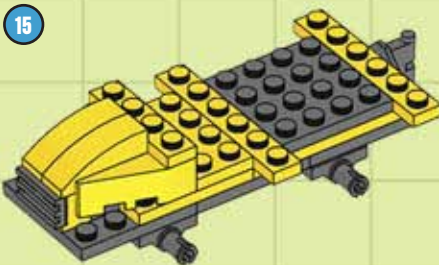

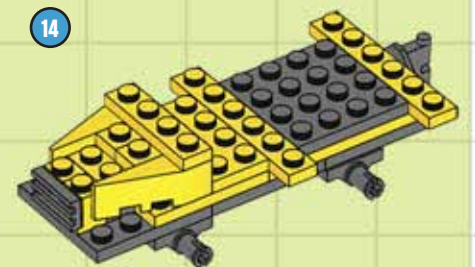

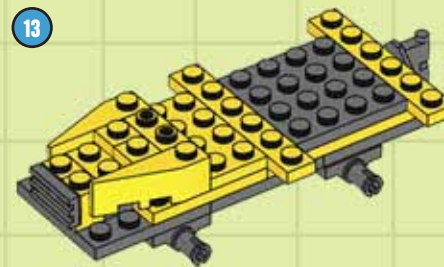

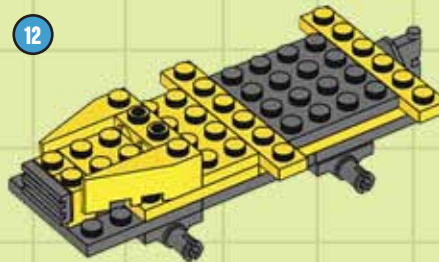

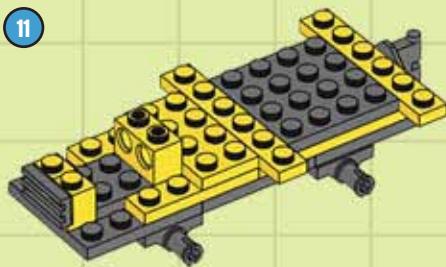

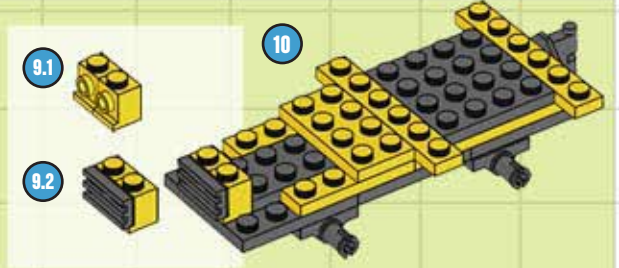

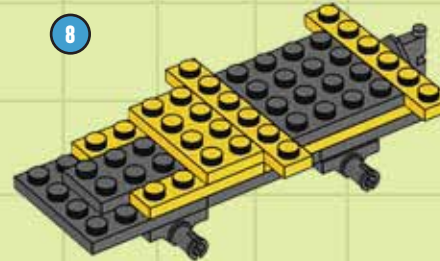

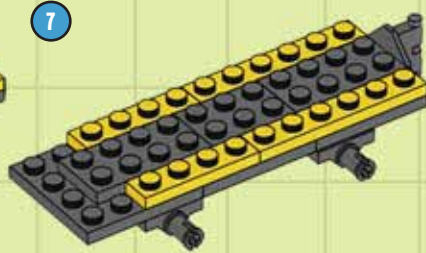

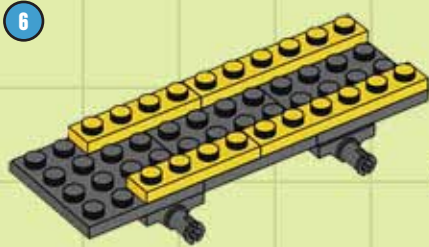

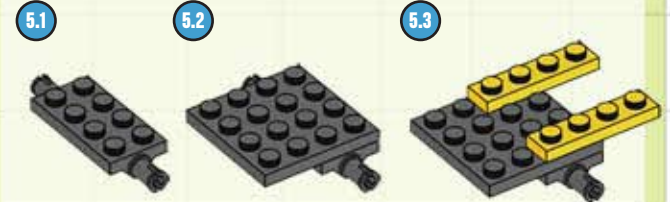

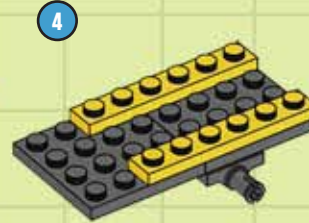

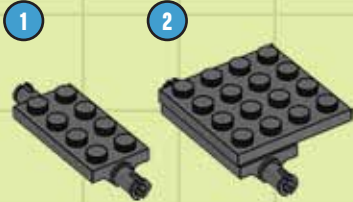

Je kunt de Graaftractor bouwen met steentjes van LEGO City set 7630 Front-End Loader en 7631 Dump Truck... of met de steentjes uit je eigen LEGO verzameling!
